

EcoNAT

Release Notes

Release notes for 3.1.4.0.30 version.

Release date November 29 2019.

Changed

IPv6 address settings now understand **any** alias.

Recognition module has been improved (primarily for the torrent protocol).

Fixed

The CLI has fixed the excessive display of a notification about the need to reboot when changing the config of the interfaces (with on-stick mode).

Fixed work with bypass.

Fixed the operation of the RADIUS module when the Message-Authenticator attribute is in the package.
