

EcoNAT

Release Notes

Release notes for 3.1.4.0.50 version.

Release date July 30 2020.

Fixed

Fixed leak of log buffers when sending logs through the **mng** interface.

Fixed handling of ICMP TTL exceeded in **cgnat** pool.

Fixed display of ICMP counters in **show counters all** (previously they were displayed only in **show counters diff**).

Fixed memory leak in the RADIUS ACCOUNTING / AUTHORIZATION algorithm.

Fixed work of the **pack_msg** setting in **connection logging**.
