EcoNAT
Release Notes

Release notes for 3.1.4.0.54 version.

Release date October 19 2020.

Added

Added **total** for **mbuf** in **show resources** command output. Also this parameter is displayed in SNMP.

BRAS. Added CLI commands **clear brascontract** and **show brascontracts**.

Changed

The time shift has been removed for connection logs in Netflow format - now the time is sent in UTC.
